

Whole School Summer 2018

Pupil Premium

Non-Pupil Premium

Progress – PP and Non-PP

	Expected Progress		Better than Expected	
Reading	54%	67%	40%	28%
Writing	62%	65%	27%	25%
Maths	69%	72%	25%	18%

Commentary

- Non-PP = 5 new pupils over the year – 72% of original cohort on track or above across all areas.
- Pupil P = addition of 15 Pupil Premium pupils across school – 50% original meeting across all subjects.
- Whole school picture shows a difference remains between pupil premium and non-PP pupils with non-pp attaining better overall and having a higher % working above ARE.
- Progress data is extremely positive for PP pupils with them making better than expected progress in all subjects in higher numbers compared to non-pupil premium pupils and progress for expected progress high also.
- Closer year group analysis shows that attainment is better for Pupil premium pupils where targeted intervention has taken place.
