A bored and adventurous boy is exploring an old chalk pit near his grandmother's house when the ground suddenly gives way. Luckily, he falls into a hidden cave. Inside, he meets Stig, a small, scruffy, caveman-like boy who lives there. Although Stig can't speak properly, Barney realises he is friendly. Barney notices that Stig is clever at making tools and has a different way of living. The chapter ends with Barney beginning an unusual friendship and discovering that Stig comes from a very different world.
