

# Home Learning - Extreme Earth

During a disaster people need things fast. Create a list of the essential things you think Oxfam would need donated when disaster strikes. You could make a poster.

Listen to a piece of classical music and paint a picture of the images that come to your mind as you listen to it. Now do the same with a piece of pop music. How are they the same or different?

Can you find out about floods? What was the biggest flood in the UK in the last 100 years?

How do we defend ourselves against floods?

Can you pay for the shopping? Ask an adult to let you work out how much change you will need.

Complete 3 or more of these home learning tasks this half term.

You will get 5 Dojos for every piece of work completed.

You can hand it in at any time during the term.

Look out for any practise home work for extra

Can you design a home that would withstand a variety of natural disasters?

You could try to make a model of your 'indestructible' house or draw and label your design.

Practise your times tables—remember you should know all of your times tables by the end of Year 4!

Measure 6 things in your home.

Compare them or order them from smallest to longest. Can you measure in mm as well as cm?

Soil is a precious resource on earth. Research what sorts of plants you could plant at this time of year. If you wanted to you could even get planting and start sowing some seeds ready for spring and summer.

Rocks are all around us. Go on a 'Rock Walk' and record all the different rocks you see. You could take

pictures, do rubbings of draw a map of what you
