Our food parcels this week arrived and were considerably better than what was shown on the local news. The image shows what will be in the parcels from next week.

Need help with data? Read below and contact school if you would like us to apply for you.

Schools can request mobile data increases for children and young people who meet all 3 of these criteria:

- do not have fixed broadband at home
- cannot afford additional data for their devices
- are experiencing disruption to their face-to-face education

Children with access to a mobile phone on one of the following networks might be able to benefit: EE, O2, Sky Mobile, SMARTY, Tesco mobile, Three, Virgin Mobile and Vodafone. (Other providers may join the scheme at a later stage.)

For each request, we need to know:

- the name of the account holder
- the number of the mobile device
- the mobile network of that device (for example Three)

Once a network provider has processed a data increase, they'll send a text message to the account holder. It's also possible to check the status of requests through the online service.

For the purposes of data protection, we need to let you know that the Department for Education (DfE) is running the Mobile Network Offer through schools and their trusts or local authorities. If the offer is taken up by an adult account holder, the school or social care team will share the account holder's name and mobile phone details with the DfE, who will share these with the relevant mobile network operator. The mobile network operator will use that information to increase the data available for the account holder's mobile device, as long as they qualify for the offer. The adult account holder's personal data is only shared with their mobile network operator for the purposes of the offer. No names of children or other adults, other than adult account holder, are shared with the DfE or the mobile network operator. No personal information will be shared with the DfE if you do not want to take up the offer. If you decide to take up the offer, you'll get a text message from the Department for Education with more information about your data protection rights.
