## SUAT Prevent Self-Assessment

Prevent is 1 of the 4 elements of CONTEST, the Government Counter Terrorism Strategy which aims to stop people becoming terrorists or supporting terrorism. The Counter-Terrorism and Security Bill places a duty on SUAT, and its academies, to 'have due regard, in the exercise of its functions, to the need to prevent people from being drawn into terrorism'. The strategy covers all forms of terrorism, including far right extremism and some aspects of non-violent extremism.

SUAT believes that preventing people becoming terrorists or supporting terrorism also requires challenge to extremist ideas where they are used to legitimise terrorism and are shared by terrorist groups. In carrying out this duty SUAT academies must have regard to guidance issued by the Secretary of State. As part of their broad and balanced curriculum SUAT academies will seek to promote community cohesion, including the promotion of fundamental British values as part of their broader commitment to promoting the spiritual, moral, social and cultural development of their pupils. We will comply with Prevent duty guidance. Guidance on promoting fundamental British values in schools is available at: <https://www.gov.uk/government/news/guidance-on-promoting-british-values-inschools-published>

Our academies duty of care to their pupils and staff includes safeguarding them from the risk of being drawn into terrorism. Being drawn into terrorism includes not just violent extremism but also non-violent extremism, which can create an atmosphere conducive to terrorism and can popularise views which terrorists exploit. We aim to ensure that our academies are safe spaces in which children and young people can understand and discuss sensitive topics, including terrorism and the extremist ideas that are part of the terrorist ideology and learn how to challenge these ideas.

In asking our academies and their Local Academy Councils (LACs) to fulfil the Prevent duty, SUAT expects LAC members and Head teachers / Principals to demonstrate activity in the following key areas:

- Risk assessment
- Working in partnership
- Staff training
- Safety online
- Monitoring and enforcement

SUAT has effective policies in all of these key areas. Each academy needs to demonstrate that they are protecting children and young people from being drawn into terrorism by implementing the robust SUAT safeguarding policy, in order to identify children at risk, and intervening as appropriate (by referring pupils to \*Channel or Children’s Social Care, for example). SUAT policies set out clear protocols for ensuring that any visitors who have come to give a talk to our pupils – whether invited by staff or by pupils themselves – are suitable and appropriately supervised within that academy. Guidance on Prevent duty guidance is available at: <https://www.gov.uk/government/consultations/prevent-duty>

\*Channel - Channel is a key element of the Prevent strategy. It is a multi-agency approach to protect people at risk from radicalisation. Channel uses existing collaboration between local authorities, statutory partners (such as the education and health sectors, social services, children’s and youth services and offender management services), the police and the local community to identify individuals at risk of being drawn into terrorism; assess the nature and extent of that risk; and develop the most appropriate support plan for the individuals concerned. Channel is about safeguarding children and adults from being drawn into committing terrorist-related activity. It is about early intervention to protect and divert people away from the risk they face before illegality occurs. SUAT academies will not hesitate to refer pupils to Channel, following the SUAT guidelines for this course of action.
